MEDICAL TREATMENTS AND TRADITIONAL CHINESE MEDICINE

All treatments of aesthetic medicine and traditional Chinese medicine require a previous medical consultation and are carried out in the presence of the doctor.

Acupuncture with, or without, Moxibustion, Auriculotherapy, Cupping

(per session) € 130,00

Ancient Chinese healing technique in which very fine needles are inserted into acupoints along the meridians of the body. It influences physiological functioning and maintains health. It corrects any imbalances that cause illness, if necessary in combination with Moxibustion (application of heat through combustion of artemisia). It relieves pain and treat a wide variety of ailments. It is carried out only after an accurate medical diagnosis.

Bio-lifting with acupuncture and Tiu Na (per session) € 150,00

Lifting facial using techniques of traditional Chinese medicine (acupuncture, acupressure and massage with jade roller). Immediately, the tissue appears brighter, wrinkles are reduced and muscle tone is improved.

Bio-revitalization face and neckline (per vial) € 120,00

Anti-aging treatment based on the use of biocompatible and absorbable substances for the restoration of the dermis, which favors the production and stimulation of collagen fibers. It can also be performed on parts of the body that are atone and asphytic.

Bio-revitalization face and neckline “needleless” (per vial) € 150,00

(with Physistech) € 180,00

PRX T-33 treatment with dermal stimulating, smoothing and lightening action also indicated for active acne. It is also available together with the Physistech machinery to strengthen revitalizing action and enhance skin tone and elasticity.

Carboxytherapy (per session) € 90,00

The carboxytherapy uses carbon dioxide for therapeutic purposes.

Given through the skin and subcutaneous injection it is used in various fields: vascular, aesthetic dermatology. The treatment is recommended for patients who suffer from Reynaud's phenomenon, alopecia, skin ulcers, cellulitis, psoriasis. It also finds application in anti-ageing treatments to prevent skin ageing.

Carboxytherapy with bio-revitalization face and neckline

(per session) € 180,00

The carboxytherapy through the bio-stimulation, induces fibroblasts to produce elastin, collagen, hyaluronic acid and increase in number of the same.

Combined with the Bio-revitalization you get a reinvigoration of the dermis resulting in deep hydration of the tissues.

These two techniques are associated together in order to obtain a rejuvenation of the face, neck and décolleté.

Chemical peeling hands - elbows and knees – face- décolleté - back

(per area) € 150,00

Chemical removal of the upper layer of sun-damaged skin creating a more even texture and stimulating collagen production for an anti-ageing effect. Different fruit acids may be used depending on the state of the skin.

Compex – Tens (per session) € 40,00

Electrotherapy able to effectively stimulate muscle contractions through electrical impulse. Useful for muscle strengthening, shaping and toning, it can also be used to relieve tensions and muscle aches.

Criotherapy (per session) € 40,00

Localized therapy that makes use of the ice, the transfer between the latter and the body takes place by means of a conduction mechanism and leads to a general lowering of the body temperature indicated to relieve pain and reduce edema.

Dermal redensification (per vial) € 200,00

Redensifying treatment based on hyaluronic acid and biocompatible substances that, promoting the production of elastine, collagen and hyaluronic acid, allow the revival of volumes, the rejuvenation, counteracting the harmful effects of free radicals. The high compatibility and long lasting effect make these products the best choice in the small facial rejuvenation philosophy.

Electro-acupuncture (per session) €90,00

The electro acupuncture is an evolution of traditional acupuncture, in which the action of the needles is amplified by electrical stimulation. During the electroacupuncture the needles are electrically stimulated, so that release a weak current flow within the tissues around the respective acupuncture points. According to the theory of MCT it also stimulates the circulation of Qi.

Filler for face and neckline (per vial) € 350,00

Therapy that involves the injection of physiological substances absorbable (hyaluronic acid), for filling wrinkles, depressions and scarring. Different products can be used according to the characteristics and needs of individuals.

Infiltration of Botox (per vial) € 400,00

The botulinum toxin is used to eliminate the so-called wrinkles caused by the contraction of facial muscles. The aesthetic medical treatment smoothes the wrinkles with anti-aging lifting effect, giving a glowing appearance.

Mesotherapy (per session) € 90,00

Homeopathic analgic injections (per vial) € 80,00

Treatment based on injections with thin needles that penetrate the top layers of the dermis. Effective for the treatment of cellulite, or with the use of specific products is also useful to relieve the pain.

Oxygen therapy (per session) € 40,00

Treatment on medical prescription which is based on inhalation of oxygen. In a few sessions, it restores the optimal blood level of oxygen, it effectively counteracts cellular ageing.

Oxyfat infrared and electro-stimulation (per session) € 85,00

Exclusive method for localized loss of weight that combines the action of infrared with the benefit of electro-stimulation. Special electrodes are placed on required areas in order to maximize the reducing effect.

Physistech (starting from) € 90,00

It is a device producing red light and athermal infrared light that, through this specific mix, promotes the functions of cellular repair and collagen stimulation. Physistech improves firmness of the tissues, visibly reduces wrinkles and increases muscle tone and elasticity of the skin.

Timed surgery to remove imperfections of the skin (starting from) € 80,00

High frequency currents are used in quick and safe diathermic surgery resulting in the elimination of skin blemishes, angioma and verruca.

Tri active Deka laser, cryotherapy and vacuum (per session) € 100,00

Exclusive new device, it restores microcirculation, venous flow and lymphatic system thanks to the combined action of cryotherapy, laser and a rhythmic massage. It is recommended as an anti-cellulite treatment and as a stimulating and firming face treatment.

Ultrasound (per session) € 40,00

High frequency vibrations applied with the aid of a specific conductor gel, helps to stimulate the production of special enzymes that speed up tissues renewal. Its application also relieves pain.

Winform transdermal vehiculation (per session) € 70,00

Transdermal absorption of specific active ingredients that helps to correct the most common imperfections such as cellulite and localized fat.
